

**Holland Board of Public Works
Broadband Residential Active Ethernet**

Effective Date:

Rates effective for bills issued on or after July 1, 2024.

Availability:

Available for all residential customers outside the City of Holland.

Character of Residential Active Ethernet Service:

Residential Active Ethernet is a private network option that allows two or more locations to connect. Residential Active Ethernet can be used to connect a residence to an Internet Service Provider or a business network. Residential Active Ethernet does not take the place of an Internet Service Provider (ISP). Additional Internet Service fees from ISP will apply.

Rates:

Bandwidth	Additional Amount per	
	Amount Per Month	Month without one-time fee
1 Mbps	\$13.00	\$5.00
3 Mbps	\$22.00	\$5.00
5 Mbps	\$28.00	\$5.00
10 Mbps	\$35.00	\$5.00
20 Mbps	\$40.00	\$5.00
50 Mbps	\$50.00	\$5.00

Setup Fee Options:

- One time setup fee of \$200.00 or
- Additional 5.00 per month for four years
- Construction fee where the anticipated present value of the net revenues over the first four years are less than required by the cost of the project. This contribution in aid of construction will equal the difference between the installation costs and the allowable extension costs.

Terms and Condition of Service:

Service is further defined and governed by the Holland Board of Public Works Broadband Terms of Service.

Approved:

Board of Public Works, March 11, 2024
Holland City Council, May 1, 2024

Holland Board of Public Works Broadband – Dark Fiber

Effective Date:

Rates effective for bills issued on or after July 1, 2024.

Availability:

Available for use to all customers. Each request will be evaluated and approved on a case by case basis. A Dark Fiber Lease Agreement is required.

Character of Dark Fiber Service:

Lease of dark fiber from point to point. This does not include electronic equipment at either end. Colocation services are available to dark fiber lease holders as an option.

Rates:

Description of Service	Amount Per Month
From Point to Point	\$0.0105 per foot per strand
1U Colocation Rack-Unpowered	\$40.00
1U Colocation Rack-Powered	\$60.00
Development Fee	Variable one-time charge

Minimum Charge:

- The aggregate minimum billing per customer is \$1000.00 per month.

Construction Charge:

- The actual cost to build new fiber outside plant and/or colocation service will be billed upon completion.
- The Development Fee is a one-time charge for expenses incurred for service activation. The Development Fee includes fiber construction, splicing, termination and power requirements.

Terms and Condition of Service:

Service is further defined and governed by the Holland Board of Public Works Broadband Terms of Service and the Dark Fiber Lease Agreement.

Approved:

Board of Public Works, March 11, 2024
Holland City Council, May 1, 2024

Holland Board of Public Works Broadband – Non-Residential Active Ethernet

Effective Date:

Rates effective for bills issued on or after July 1, 2024.

Availability:

Available for all non-residential customers.

Character of Active Ethernet Service:

Active Ethernet is a private network option that allows two or more locations to connect by using a broadband data connection to an Internet Service Provider (ISP) or Private Network (VLAN Point to Point) connection. Active Ethernet can be used to connect a business to a business network or to create a private network between multiple business locations. Active Ethernet does not replace the need for an ISP. Additional Internet Service fees from an ISP will apply.

Rates:

Bandwidth	Amount Per Month	Bandwidth	Amount Per Month
0.5 Mbps	\$35.00	100 Mbps	\$350.00
1.0 Mbps	\$40.00	200 Mbps	\$400.00
3.0 Mbps	\$60.00	300 Mbps	\$450.00
5.0 Mbps	\$80.00	500 Mbps	\$550.00
10.0 Mbps	\$150.00	1000 Mbps	\$750.00
20.0 Mbps	\$175.00	2000 Mbps	\$1500.00
30.0 Mbps	\$200.00		
50.0 Mbps	\$250.00		

Additional Fees:

- One-time set-up fee - \$550.00 per connection
- Engineering fee - \$100.00 per hour for network configuration changes. Minimum - \$100.00
- A Construction Fee is required where the anticipated present value of the net revenues over the first four years is less than the actual cost of the project. This Construction Fee is equal the difference between the installation costs and the recoverable extension costs.

Terms and Condition of Service:

Service is further defined and governed by the Holland Board of Public Works Broadband Terms of Service.

Approved:

Board of Public Works, March 11, 2024
Holland City Council, May 1, 2024
