Please complete and submit this page, along with the appropriate worksheet(s) and quotes with model numbers from your contractor, *before you begin your project*. If you plan to install the equipment yourself (as opposed to hiring a contractor to do so), please submit a quote/proposal for the cost of the equipment from a supplier or distributor. If your project meets the pre-approval criteria, you will receive a letter indicating the funds have been reserved. 2. **Incentive Offer:** Energy-efficient equipment subject to incentive from Energy Smart – Holland BPW must be installed and operational by December 31, 2026. Additionally, invoice(s) related to the equipment upgrade must be submitted to Holland BPW within 30 calendar days of installation (completion) and no later than December 31, 2026. Please keep a copy for your records. Incentives are calculated based on prescriptive incentive rates and shall not exceed **100%** of the total cost of equipment, labor, and other associated project costs. Custom projects are not to exceed 100% of costs.
3. **Project Documentation Requirements:** Customer will have to provide Energy Smart – Holland BPW with the documentation as listed in the instructions (page 1). If Customer does not provide the required project documents to Holland BPW at pre-approval and payment stages, the project may be disqualified from the program. The project may also be disqualified if pre-approval is not received, unless otherwise noted on the application.
4. **Energy-Efficiency Improvement Qualifications:** Increased energy efficiency resulting from peak shaving, programming, demand limiting, or operating schedule changes does not qualify. To qualify, lighting equipment must have a planned minimum usage of 1,800 hours per year. Non-lighting equipment must have a planned minimum usage of 1,500 hours per year. If Customer's equipment does not meet required usage hours per year, an incentive cannot be offered. If Customer has questions or concerns about above qualifications, Customer may contact Energy Smart – Holland BPW to discuss.
5. **Incentive Limit:** Prescriptive applications may receive a maximum of \$50,000. Custom applications may receive a maximum of \$100,000. Incentives for measures can be up to 100% for Prescriptive projects and 100% for Custom projects of the total project cost of a specific measure but shall not exceed the incentives set by Energy Smart – Holland BPW for each measure on the application Worksheet(s). Projects anticipated to save more than 1,000,000 kWh should contact EnergySmart@hollandbpw.com to determine their applicable incentive limit.
6. **Compliance:**
 - a. All projects must comply with applicable federal, state and local laws.
 - b. All equipment must be new.
 - c. The purchase and installation of used equipment is not eligible for incentives. Existing equipment must be removed and/or permanently disconnected.

 - e. All projects must be retrofit/replacement installation in an existing building (not available for new construction unless noted otherwise).
7. **Payment:** Approved Final Applications will receive payment within 45 calendar days of signed payment approval. Incomplete applications will either delay payments or result in denial of application approval. Energy Smart – Holland BPW reserves the right to refuse payment and disqualify Customer from participating in the program if the customer or their contractor violates any program Terms and Conditions. The qualified equipment must be installed and operating for the rated life of the product(s) or for a period of three (3) years from receipt of rebate, whichever is more. If the qualified equipment is removed or replaced with less efficient equipment, or if Customer ceases to be a customer of Holland BPW during the three (3) years, Customer shall refund a prorated amount of rebate dollars, based on the time installed, within thirty (30) days of receipt of notice from Energy Smart - Holland BPW.
