<input type="checkbox"/> Irrigation									Irrigation	
<input type="checkbox"/> Fire Service										
<input type="checkbox"/> Wastewater										

I agree that the information on this application is correct to the best of my knowledge. I understand that any changes made to the above information or attached documents may increase the time and costs required for the Holland BPW to provide service to the project. Charges for services rendered will go to the property owner of record or to the person who will be responsible for paying the utility bill at the address being served (Customer).

Initial installation charges may appear on the first bill for service. I acknowledge that I understand and agree to the Terms and Conditions for Water Service and/or for Sewer Service, available at hollandbpw.com. Applications that are incomplete after 60 days may be discarded. For customers in the Township: Fees are paid to the Township, but commodity billing will be from the Holland BPW.

LEAD AWARENESS - Some homes built prior to 1977 may still be connected to the public water main with a galvanized water service and an approximately 2 foot piece of lead pipe called a lead gooseneck. Galvanized water services with a lead gooseneck are classified as lead water services by the State of Michigan. Please refer to map at hollandbpw.com to determine the service material for the property. The State of Michigan and the U.S. EPA require us to test our water on a regular basis to ensure its safety.
